

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1-32 (Canceled).

33 (Currently amended). A calendar-based photo file browsing system for browsing a plurality of files including at least one of a digital image or a digital video, each said digital file having an associated date, said system having an interface displayed on a display, said interface comprising:

- (a) a calendar portion having a range of displayed dates, each respective said date containing an indicator indicating the existence of one or more files associated with said respective said date; and
- (b) a browsing portion enabling a user to selectively increment said range ~~alternatively either~~ by a month ~~or~~ and alternatively enabling a user to selectively increment said range by a portion of a month.

34 (Previously presented). The system of claim 33 where said browsing portion permits said user to selectively increment said range by a selected one of a day, a month, and a year.

35 (Previously presented). The system of claim 33 where said browsing portion permits said user to adjust the size of said range by a number of days equal to or greater than a week.

36 (Previously presented). The system of claim 35 where said browsing portion permits said user to alternate said range between a week and a month.

37 (Previously presented). The system of claim 33 where said indicator is a thumbnail image.

38 (Previously presented). The system of claim 37 where said thumbnail image is representative of a plurality of images, each associated with the respective indicator's date.

39 (Previously presented). The system of claim 33 where each respective displayed date has an associated displayed second indicator indicating the quantity of files associated with said respective displayed date.

40 (Previously presented). The system of claim 33 having plural said indicators.

41 (Previously presented). The system of claim 40 where each of said plural indicators of a respective said date indicates a category of files.

42 (Previously presented). The system of claim 40 where each of said plural indicators of a respective date indicates a time associated with said respective date relative to other said indicators associated with said respective date.

43 (Currently amended). A calendar-based photo file browsing system for browsing a plurality of files including at least one of a digital image or a digital video, each said digital file having an associated date, said system having an interface displayed on a display, said interface comprising:

- (a) a calendar portion having a range of displayed dates, each respective said date containing an indicator indicating the existence of one or more files associated with said respective said date, said indicator being a thumbnail image of a file associated with said respective said date; and
- (b) a browsing portion enabling a user to selectively increment said range ~~alternatively either~~ by a month ~~or~~ and alternatively enabling said user to selectively increment said range by a portion of a month.

44 (Previously presented). The system of claim 43 where said thumbnail image is representative of a plurality of images, each associated with the respective indicator's date.

45 (Canceled).

46 (Previously presented). The system of claim 43 where said browsing portion permits said user to adjust the size of said range by a number of days equal to or greater than a week.

47 (Previously presented). The system of claim 46 where said browsing portion permits said user to alternate said range between a week and a month.

48 (Previously presented). The system of claim 43 where said browsing portion permits said user to selectively increment said range by a selected one of a day, a month, and a year.

49 (Previously presented). The system of claim 43 where each respective displayed date has an associated displayed second indicator indicating the quantity of files associated with said respective displayed date.

50 (Previously presented). The system of claim 43 having plural said indicators.

51 (Previously presented). The system of claim 50 where each of said plural indicators of a respective said date indicates a category of files.

52 (Previously presented). The system of claim 50 where each of said plural indicators of a respective date indicates a time associated with said respective date relative to other said indicators associated with said respective date.
